

The Princeton

A Home Perfected by Denim Homes

The Princeton

Siding and stone with an arched window and cedar siding create a charming exterior on this one level home.

A sloped ceiling in the great room rises 2 feet above the standard 8' ceiling height while a grand opening between the great room and dining area visually expands the living space.

A spacious kitchen with an abundance of counter space, a pantry and snack bar create a delightful place to prepare meals.

The master bedroom enjoys a private bath with a double bowl vanity and large walk-in closet. Two additional bedrooms and a full basement complete this delightful home.

1509 Square Feet

**3 Bedrooms
2 baths**
